now to put it all together

Place a front and back ear panel together with the wrong sides facing in and sew up using a mattress stitch in M, leave the cast on edges open. Repeat for the second ear.

Place the hat flat down and, with the rib folded down, measure 6cm from the base of the hat. Place the ear here. Leave a gap of 1.5cm in the centre of the top of the hat, and place the second ear on the other side, 6cm from the base.

Sew into place using M and weave in the loose ends.

Finally, fold up the brim and admire your crafty fox.

What a handsome chap.
